EyeCareConcepts Clayton

January 30, 2017

Dear Valued Patient:

We are excited to announce some changes coming our way!

We are changing our name to **eyecare concepts**. The eyecarecenter corporation was recently acquired by Clarkson Vision which is based in the Midwest. We are choosing to no longer be associated with them so we are dropping our franchise and the name that goes along with that. However, Dr. Wilkins, Dr. Briggs and our phenomenal staff will continue to provide all of your eye care needs.

And now we are also able to offer you the latest advancement in eye health care. At your next visit to **eyecare concepts** you will be able to experience an iWellnessTM scan. iWellnessTM uses breakthrough technology to let us see beneath the surface of your retina and allows us to see signs of disease before they would be revealed with traditional examination methods. It is a quick, non-invasive scan that can help us detect vision threatening and systemic diseases in their very early stages when they are most treatable.

At **eyecare concepts**, we are dedicated to providing our patients the best eye care possible. We look forward to seeing you at your next appointment. Thank you for choosing our practice to protect the health of your eyes and your vision!

Sincerely yours,

Dr. Wilkins, Dr. Briggs and staff
